

When is Missouri Tax Free Weekend?

August 7-9, 2020, Friday through Sunday.

How do I order a laptop through the Campus Store during the Missouri Tax-free Weekend?

From Campus Store's WashU Approved laptops page, **select only from these listings:**

a) [Dell 14" Inspiron 7000 \(Silver\) + 3-year warranty \\$1035](#)

This Dell is covered 100% by the grant and meets the recommended standard for most schools.

b) [13" MacBook Pro MXK32LL/A \(Space Grey\) + AppleCare 3-year: \\$1448](#)

c) [13" MacBook Pro MXK62LL/A \(Silver\) + AppleCare 3-year: \\$1448](#)

If purchasing a Mac, AirPods are included (standard \$159 only), but **do not add them to your cart**. We will add them to your order.

How do I pay for the laptop with my grant money?

At check-out select "Financial Aid/Scholarship" for payment method and enter your student account number. If the grant does not cover the whole amount, pay balance with a second payment method.

What should I select for shipping?

IMPORTANT for Orders Aug 7-9 ONLY: Please select "In-Store Pick-up" as the shipping method and email your Web Order Number and shipping address to:

CampusStoreTech@wustl.edu

The Bookstore will ship your laptop to you from our store. You will be kept informed by email when to expect your laptop and will receive UPS tracking when it is on its way to you. These recommended models are expected to reach you before school starts. Please expect 1-2 weeks to ship.

Who should I contact if I have questions about my laptop or computer order?

Please direct questions about orders to Aimee Yankowski, Technology Manager at the Campus Store: aimee_yankowski@wustl.edu. Include your *Web Order Number* if it is about an online purchase.

What if I already bought a laptop from the Campus Store with an extended warranty?

Please contact Aimee at the Campus Store for assistance in applying the grant to your previous WU Campus Store purchase with warranty.

What if I bought a laptop from the Campus Store, but didn't get the extended warranty?

Since these warranties cover accidents, laptops cannot be enrolled remotely after purchase. Aimee can assist with enrolling your computer into a Safeware Protection Plan instead (3rd party, covers Dell and Mac, honored for Mac at Campus Store, mail-in repairs only for Dell). Once this is complete, Aimee can assist with applying the grant toward the purchase.

Can I get reimbursed if I already bought a laptop from elsewhere?

No. WashU will not reimburse you for a laptop you already purchased, but the grant can still be used through the Campus Store to purchase another machine.
